PRODUCT FEATURES & SAFETY PRECAUTIONS

STURDY DESIGN

Totally indigenous design, this HS-C2520PC personal cooler is made of MIP material having excellent aesthetic appeal and a corrosion-free life.

BLOWER

Custom made blower is designed for optimum efficiency with three speed selection - High, Medium, Low.

FOUR WAY AIR DEFLECTION SYSTEM

This feature enables uniform circulation of air by motorized vertical louvers for uniform air distribution throughout the room.

UNIFORM WATER DISTRIBUTION ON PADS

Water is distributed on the cooling pad through a pump that delivers water to the shower holes. Independent pump control is provided to control the flow of water released on the cooling pads.

SPECIAL HONEY COMB PADS

This special pad is made from natural fibre and is provided for efficient evaporation of water. It has a unique construction for maximum surface area to come in contact with water.
